Saint Nicholas Celebrates 60 Years

1955-2015

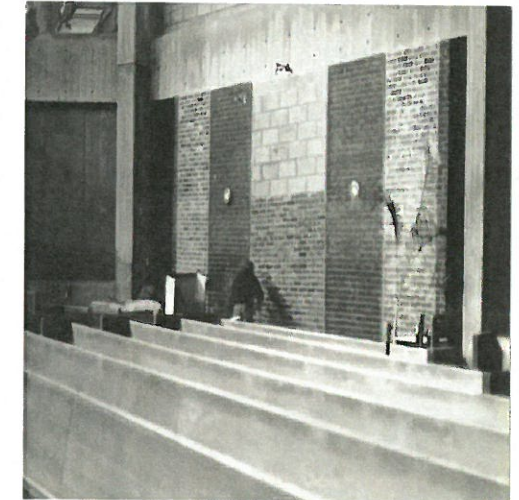

Phase I is completed....

Phase II starts for our Church

By 1985, St. Nicholas began Phase II of the building program to complete the interior of the Church and prepare for its Consecration. A new altar, icon screen, baptistery, new carpeting, choir loft, three new classrooms, a new meeting room and a reliquary for the relics of St. Nicholas were included in the final plans. Italian artisans, under the direction of Salvatore Bruno of Carrara, Italy, were brought to Flushing, to execute the mosaics and the marble work, some of which was imported from the same quarry used by Michelangelo. The Church was consecrated on June 4, 1989.

The cement iconostasion is removed make way for the marble from Italy.

Sept. 1987-Closing up the old doors in preparation for the expansion of the narthex.

Salvatore Bruno of Carrerra Italy prepares the mosaics

Preparing the wall for the marble

The Church is completed in 1989. The Consecration activities begin with a concert by the Senior Choir, a Consecration Ball in May 1989 and Consecration service on Sunday June 4, 1989. A luncheon was held after the service.
